432 Cue 24v/200v Capacitive Discharge System

Capable of shooting Multiple fronts with 200v of Capacitive Discharge, the closest thing to computer fire for show design.

432 cue Capacitive Discharge System

The principle behind the 24v/200v capacitive discharge system is to allow the shooter to be very flexible with the display.

Having the capability to address the field modules to any combination and having the capability of igniting over 20 ematch's in parallel.

Since the cables are ran from module to module using the least number of cables in the field, it reduces the resistance that kills power.

The capacitive discharge system is designed with a 24v backup if anything should happen to the high voltage system.

Capacitors are designed to drain within 5 sec of turning the system off.

Features

- *24v/200v Capacitive Discharge
- *Addressable 36 cue ABS Tray Field Modules
- *24v Battery Charger
- *Voltage meter
- *LED continuity Test
- *External Battery post
- *BNC panel mount goose neck light
- *Uses Standard 50pin Centronics Cables with male to male connectors
- *Power on Key Switch
- *Armed Key Switch with flashing LED and 2 second buzzer
- *Durable waterproof yellow case
- *0 wait time capacitor charging to next cue.

System includes

- *432 cue capacitive discharge system*
- *24v charger* *Goose neck light*
- *12- 36 cue addressable ABS tray field modules*
- *1-100' cable, 11-25' male to male cables*

36 cue Field Modules
ABS Tray style design for the shooter in mind
13 1/2" x 13 1/2" x 2 3/4"
***36 cues**
***Fully addressable with**
Hance Pyrotechnics 432 cue system.
***Thin design to take up 1/3 the space of**
traditional field modules and can be attached
directly to racks.
***Hinged lid to protect from rain and debris.**

Disclaimer

*Hance Pyrotechnics Products are hand-assembled using the highest quality components. Because of this high quality and craftsmanship, all Hance Pyrotechnics Systems are backed by a limited One-Year Warranty on all parts and labor. *All returns must be within 30 days of purchase and in like new condition. *Warranty excludes any damage caused by excessive rough handling, accident or misuse of product, or when used in conjunction with any components other than Hance Pyrotechnics products. The purpose of this equipment is to cause initiation of industry standard Pyrotechnic electric matches to ignite display type fireworks or pyrotechnic special effects.*

Fireworks and special effects materials are explosives and may cause personal injuries or death to yourself or others, including spectators. SAFETY IS YOUR RESPONSIBILITY and is beyond the control of Hance Pyrotechnics. The buyer / user assumes all responsibility and liability in the use of this equipment and further agrees, by purchase and / or use of this equipment, to indemnify and hold harmless Hance Pyrotechnics and its agents against all liability for injury, loss, or damage direct or consequential arising out of the use of, or inability to use this equipment. Any subsequent purchaser is also bound by these conditions of sale.
